

Week Five: February 17, 2004

Continuation of material from February 10th lesson plan.

Grady announced that all students are expected to send in their registrations for and attend the March 10-12, 2004 [Coastal Issues Conference](#). Do not send in any money. We are working on getting the registration fees waived. But you still must register. The class regularly scheduled for March 9th will be cancelled in lieu of conference attendance.
